

IAG's Superb Signature Auction - Sale 86

Just a Few of the Superb Coins on Offer

1 Pound Specimen Note 1938 Estimated at \$28,000

A Rare 5 Pound Specimen Note 1933. Estimated at \$38,000

IAG's next major Auction, Sale Number 86, to be held on the 17th of September, is one of their best and most interesting auctions in recent years. With so many highlights across a broad range of areas it's a sale that every serious collector shouldn't miss! With cataloguing almost complete, the entire highlight-filled auction will be viewable online from the 5th of September when bidding opens, with every lot available in high resolution on IAG's website www.iagauctions.com.

One of the great things about this auction is its diversity, with the wide range of interesting and rare highlights going right through the whole sale. Some early convict tokens are great examples of this. One is by Fredrick Morgan, who was a publican in Bathurst amongst other things, and whose sons developed the Mount Morgan mine. This along with another token make for interesting lots.

Another key highlight is a very rare high denomination 100 Pound Banknote from 1924 (R 69b) in lovely original gVF condition. Estimated at \$75,000, it is priced to sell!

A key highlight is a Polymer Specimen presentation set to John Phillips, former Deputy Governor of the Reserve Bank, inaugural Chairman of the Board of Note Printing Australia and a bank-note signatory on paper notes for two months in 1989 (the only Deputy Governor of the RBA to be a signatory). This rare set comes with an official letter dated 1992 signed by Bernie Fraser, along with a presentation Type I Specimen set in an album (uninscribed) from Phillips also on offer.

The rare Specimen theme doesn't end there though, with two other rare early Pre Decimal Specimen notes – a 1 Pound 1938 Sheehan-McFarlane and a 5 Pound 1933 Riddle-Sheehan just two examples of well priced key rarities, estimated at \$28,000 and \$38,000 respectively. Pre Federation Specimen and Issued notes,

A Selection of the Rare British, Proclamation and Gold Coins coming up in this Sale

a nice selection of Hay Internment Camp notes and coins in UNC, some rare Misprints, Starnotes, Decimal, First and Last Prefixes, special serial numbers and much more complete an excellent selection of paper currency.

Coin highlights include an attractive 1852 Adelaide Pound Type II, 1813 NSW Dumps, 1930 Pennies including one in aVF condition, a 1923 Halfpenny in gEF/aUNC, 1922/1 Overdate Threepences, an UNC 1921 Star Shilling, high grade 1932 Florins and more. Some other rare copper includes a 1920 Plain, Double Dot and 1925 Penny in high grade, Pre Decimal Proofs with a rare 1928 Penny and a run of QE II including superb 1955 and 1956Y issues, along with some choice grade Pre

Decimal Copper and Silver including many PCGS. There is also a quantity of bullion sovereigns and modern mint gold issues.

There is an excellent selection of rare and interesting World and British coins, including a Gold "Doubloun" Peru 8 Escudos of 1736, a USA Dollar 1799, a rare trial Hong Kong 'Dollar' 1864 and much more. British issues include a 1692 William and Mary Half Guinea, a Charles I Pontefract octagonal Shilling, a Pattern Farthing 1660 and Sixpence 1770, as well as several large British gold sets. There is also a large selection of Proclamation coinage, including a Johanna and several Half Johannas, 2 gold 4 Escudos, gold Mohurs, Guineas, Ducats, several choice 8 Reales and much more!

Other highlights include some rare Mis-Struck issues, including a Double Struck 1940 K.G Penny, a 1943S Florin struck on a USA Nickel blank, a 50 Cent Royal Wedding struck on a Hong Kong \$5 blank, a 50 Cent 1991 Rams Head struck on a 10 Cent blank, and a 1995 \$1 struck on a 10 Cent blank. There is also a large natural gold nugget of nearly seven ounces, tokens, medallions, mint products from the Perth Mint and RAM, NPA products, and so much more.
